

**Mill Creek Community Plan Steering Committee
Meeting Summary
November 19, 2004**

Present: Marty Crisp, Blair Wolfley, David Gilroy, Joe Melo, Mike Mabrey

Minutes: Not considered

Letters of intent: Draft reviewed and several changes were recommended. Mike will have the Prosecuting Attorney's office review prior to submitting it to the Board of County Commissioners for signature.

Stakeholders and Neighborhood Representation: Pleasant Valley Rural Ranch Association elected a new president and three directors. David asked that Mark Ebbeson and J. Brumbaugh be included in future correspondence. Blair contacted _____, WSU who does not want to be involved on a regular basis, but is fine with Blair covering this planning effort.

Vision of the future for this area: David shared some of his ideas on the desired outcomes of this process (coordinated storm water retention, better regulation of seasonal flows, habitat protection) and some of the area's constraints (one point of access, poor sight distance at intersection with 50th Ave). Blair will e-mail three questions to the Steering Committee to help us identify what advantages there may be to working cooperatively. There was no discussion of using The Strategic Management Process due to the small group present.

Next meeting date: December 13 3:00 – 4:00 pm at the BGSD District Office
Blair will be the facilitator.
